

STILL PREPARING FOR ANY EMERGENCY THAT COMES FROM HOSTILITIES

WASHINGTON AUTHORITIES CONTINUE TO PREPARE TROOPS AND MARINES FOR ACTIVE WAR SERVICE.

Reports From City of Mexico Are Not Encouraging Although the Two Leaders Accept Ambassador Wilson's Suggestions.

[BY ASSOCIATED PRESS.]
Newport News, Va., Feb. 18.—The United States army transports Meade and McClellan sailed today for the Gulf of Mexico. The McClellan is for Galveston. The Kilpatrick and Sumner still are here. They have sailing orders for southern ports and probably will get away today.

Societies Disband.
With sickness and famine confronting the people in Mexico City in consequence of ten days of street fighting, the White and Red Cross organizations have been disbanded owing to their internal political intrigues. Ambassador Wilson has established an embassy relief organization.

No Infraction.
Secretary Knox told President Taft and the cabinet today that notwithstanding the fierce fighting in the City of Mexico for the last eight days there had been no infraction of the rules of civilized warfare or the principles of international law as would warrant any interference by the United States.

Both Agreeable.
The responsiveness of both President Madero and General Diaz, he said, to the suggestions of Ambassador Wilson, in the capacity as dean of the diplomatic corps in the Mexican capital, have been so complete and satisfactory as to justify officials here in their opinion for the strictly neutral attitude observed by the United States.

Remove Batteries.
It was noted that yesterday the federal batteries which threatened to draw the fire of the rebels upon the legation quarters, promptly were removed by General Huerta upon the request of the American ambassador, who also has been given the largest powers and freedom of movement in extending aid to Americans and other foreigners within the fighting lines.

Are Satisfied.
Apparently the policy adopted by the United States in dealing with the Mexican situation has met with the unqualified approval of the European powers. During the last week Secretary Knox has talked with several of the ambassadors. In no instance has there been a disposition to criticize the administration for not intervening.

Battleships Ready.
The four battleships of the Atlantic fleet under repair in the Atlantic coast navy yards are expected to follow the Connecticut which sailed today from New York for Guantanamo, which will give Rear Admiral Badger fifteen battleships at that point without the four ships he has already sent to the Gulf coast of Mexico.

Will Be Ready.
When the vessels have taken aboard the 2,000 marines starting today from the League Island navy yard, the commander-in-chief will be in a position to meet any possible demand for naval forces either afloat or ashore at short notice.

WASHINGTON ANXIOUS.
Washington, Feb. 18.—Further preparations for co-operation between the army and navy for any emergency in the Mexican situation went forward today with the assembling of 2,000 marines at Newport. News from Philadelphia from where they are to be transported to a concentration camp at Guantanamo.

It was expected that two regiments would sail today. While a veil of secrecy was thrown about preparations for mobilizing an army expeditionary force at Galveston from the troops now on the border, it was known that troops as far north as Leavenworth had been ordered in readiness.

NEW YORK PREPARATIONS.

New York, Feb. 18.—The battleship Connecticut, flag ship of the North Atlantic squadron, steamed out of the Brooklyn navy yard at day break today, bound for the United States naval station at Guantanamo, Cuba, where emergency forces including 2,000 marines are being concentrated while developments in Mexico are being watched.

Although the big battleship was in dry dock when orders were received yesterday from Washington for her to proceed, she was floated, provisioned and manned within eight hours and moved out of Wallabout Bay at the navy yard punctually at 6:30 o'clock the hour set in the orders, under command of Rear Admiral Winslow.

At the same time before the city was awake there was bustle in the barracks where three hundred marines were making ready to entrain for Philadelphia to ship on the transport Meade for Guantanamo. All but 70 of the marines at the yard were mustered for this service under command of Colonel J. H. Lejeune.

A large number of Mexican federalists have been killed during heavy fighting in the vicinity of the American embassy at Mexico City. Many bullets have entered the embassy building, but only slight damage has been done.

Hundreds of Americans and other foreigners desirous of leaving Mexico City are prevented because continued firing makes it impossible for them to make the necessary preparations.

NO DISCRIMINATION FOUND IN THE LAW

Supreme Court Affirms Decision of Lower Court in Regard to Assessment for Street Improvements.

[SPECIAL TO THE GAZETTE.]
Madison, Feb. 18.—The supreme court today affirmed the decision of the lower court in the case of the Wisconsin Central Railway company et al., plaintiffs and appellants, vs. City of Superior and White Construction company, defendants and respondents.

The constitutionality of Chapter 529, laws of 1909, relating to street paving, was challenged by the appellants in this case. Under this law the city of Superior laid an asphalt pavement on Tower avenue and assessed the entire cost to the abutting property owners. The same street had previously been twice paved and the owners assessed for part of the cost. No deductions were made in the third assessment for the two previous assessments paid. It was set up by the appellants that the statute provided for permanent pavements with a concrete foundation, definitions (exemptions) should be made for assessments for previous pavements. The city officials in disregarding the previous assessments followed Chapter 275 of the laws of 1911, which provides that the exemptions noted shall not apply to cities of the second class (Superior). The validity of this law was attacked by the Wisconsin Central and others owners on the ground that it discriminates between property in cities of different classes, to the disadvantage of owners of property in cities of the second class, and that the legislature has no right to make such a discrimination, and that the legislation while general in form is in fact special.

The respondents' attorneys replied that all courts hold that laws providing for the payment of the cost of public improvements by special assessments do not violate constitutional provisions prohibiting special legislation, although they provide different rules and methods in different cases, with a resulting inequality in the assessments upon the property. The respondents asked for affirmation of the judgment of the lower court, which dismissed the appeals.

PIONEER JOY-RIDER IS BANDIT'S CLAIM

Thomas Burke, One of Chicago Desperados, Boasts of His Deeds in Story to Police.

[BY ASSOCIATED PRESS.]
Chicago, Feb. 18.—Thomas Burke, one of the auto bandits under arrest here, said today that he was the champion joy-rider of Chicago and that he has stolen approximately 2,000 automobiles.

"I began taking automobiles when I was thirteen years old," said Burke. "And I think I am the pioneer joy-rider of this town. I loved it. Many of them are sold, but I never made any money at it. I have sold a \$2,000 machine as low as \$1."

Further arrests of persons implicated in the confessions of Burke and Robert Webb were expected today. Raids on "fences" and arrests of a number of business men who are said to have profited more by the raids of the auto bandits than the bandits themselves were planned by the police today.

Captain Patrick J. Lavin of the Hyde bank station is in possession of the names and addresses of the men who are declared by Robert Webb, confessed slayer of Detective Peter Hart, to have netted about \$10,000 of the \$15,000 worth of plunder taken by the robber clique.

DENY STATEMENTS OF LABOR LEADERS

Manufacturers Declare That 6,000 of Akron, O., Rubber Plants Are Now Affected by Strike.

[BY ASSOCIATED PRESS.]
Akron, O., Feb. 18.—Assertions of leaders of industrial workers of the world that 6,000 employees of local rubber plants are affected by the strike which has been in progress at the plants of four manufacturing concerns in this city were flatly denied today by the manufacturers. H. S. Byers, president of one of the corporations issued a statement saying that many of the men had returned to work and that many letters were received today from men who asked to be reinstated.

IMMIGRATION BILL PASSES IN SENATE

Measure Passed Over Taft's Veto and Effort Will Be Made to Do the Same in the House.

[BY ASSOCIATED PRESS.]
Washington, D. C., Feb. 18.—President Taft's veto of the Burnett-Dillingham immigration bill was overturned in the senate today when the bill was re-passed, 72 to 18, greatly in excess of the two-thirds vote necessary. An attempt will be made to re-pass the bill in the house.

Senator Dillingham, one of the authors of the bill, attacked Secretary Nagel for condemning the literacy test.

Senator Stone made the first speech against the re-passing of the immigration bill. He declared that the bill proposed to establish a radical and unwise change in the immigration policy of the United States.

Eight hours is prescribed as the maximum time for a day's work for women in the District of Columbia in a bill which the senate committee today agreed to favorably report. Senator Keaton has prepared and will introduce a bill restricting the employment of women throughout the country to eight hours a day by prohibiting their employment beyond that time in any industrial concern engaged in interstate commerce and to forbid railroads in interstate commerce from accepting goods from any violator for transportation.

President Taft referred the Webb bill regulating the shipment of liquor into dry states to Attorney General Wickensham and Secretary MacVane. Mr. Wickensham was taken to indicate that the president wanted an opinion on its constitutionality.

ASSEMBLY FOLLOWS ACTION OF SENATE

Unanimously in Favor of Popular Election of United States Senators.

[BY ASSOCIATED PRESS.]
Madison, Feb. 18.—Senator Ackley's joint resolution providing for popular election of United States senators passed the assembly unanimously.

On a viva voce vote O'Day was declared elected to his assembly seat. Joint resolution 2 by Senator Ackley calling upon congress to provide by the popular election of United States senators was passed without a dissenting vote.

Four bills for the regulation of hotels were offered by Senator Burke. The measure provides for a hotel commissioner for various reforms in the way of sanitation.

He will be opposed by Captain James Martin of this city, well known socialist, who will run as an independent. The democrats did not nominate a candidate. The election will be held February 25.

UPPER BERTH LAW IS LEGAL DECLARES COURT

[BY ASSOCIATED PRESS.]
Madison, Feb. 18.—The supreme court today upheld the constitutionality of the upper berth law enacted by the 1911 legislature. The law provides that the upper berth shall be closed when not occupied.

EASTERN RAILROADS SUBMIT TO DEMANDS FOR A SETTLEMENT

Yield to Firemen Today and Agree to Arbitrate Controversies Under Provisions of Erdman Act.

[BY ASSOCIATED PRESS.]
New York, Feb. 18.—There will be no firemen's strike on the eastern railroad.

The railroads yielded today and agreed to arbitrate under the Erdman act and the controversy with the brotherhood of locomotive firemen and engineers. The firemen had stood to a man for this method of arbitration and every since the deadlock began had stood for arbitration before a commission of six or seven men.

The men acting under the law will decide the firemen's claims. Their decision will be binding.

The firemen selected their representative on the board of arbitrators as soon as the railroads' decision was announced. He is Albert Phillips of Sacramento, California, vice president of the organization.

The railroad selected as their man, W. W. Aterbury, vice president and general manager of the Pennsylvania lines in the east.

Within a day or two these two men will select the third or neutral member. Within thirty days thereafter, the arbitrators must render their findings. Where they will meet was not announced.

CUNNINGHAM WANTS HOME FOR CRIPPLES

Beloit Senator is Favoring Bill Providing for State Hospital for Deformed Children.

[SPECIAL TO THE GAZETTE.]
Madison, Wis., Feb. 18.—Senator Cunningham of Beloit is favoring a bill for the establishment of a state hospital and school for crippled and deformed children. He is firm in the belief that many of the crippled children of the state, if taken in charge before their deformities become fixed for life, could be restored to society to become useful members rather than burdens upon it. He thinks the state has a duty to perform for such unfortunate, just as it has for those afflicted in other ways—the feeble-minded, insane, deaf, blind, or dependent. His bill makes it possible for those so desiring to pay for treatment and training in such an institution, but the service would be free to those who could not afford to pay.

The bill contemplates that the proposed institution shall be under the supervision of the state board of control, and grants an appropriation of \$200,000 for its construction.

DR. FRIEDMANN ON WAY TO NEW YORK

German Specialist Will Attempt to Cure 95 Out of 100 Cases of Tuberculosis by His Discovery.

[BY ASSOCIATED PRESS.]
Berlin, Feb. 18.—Dr. Friedrich Friedmann, whose claims to the discovery of a serum curing tuberculosis have been discussed, sailed for New York today on the steamer Kron Prinzessin Cecilie. He took with him a quantity of the serum which he asserted were so efficacious and it is understood he proposes to attempt the cure of ninety five out of one hundred cases of tuberculosis, a test for which a New York banker has offered a million dollar fee if success is attained.

STRIKE STARTED TWO YEARS AGO ENDED AT NOON

[BY ASSOCIATED PRESS.]
Kansas City, Mo., Feb. 18.—A strike called in September, 1911, involving 1100 car men throughout the Missouri, Kansas and Texas railroad system ceased at noon today. President Ryan of the International Brotherhood of Railway carmen said the majority of the 1100 strikers were prepared to return to work at once.

BALKAN WAR NEWS MOST MEAGRE IN ALL IMPORTANT DETAILS

Enver Bey, Reported Killed, is Alive and Well, According to Dispatches.

[BY ASSOCIATED PRESS.]
London, Feb. 18.—The conflagration which threatened to wipe out most of Constantinople was under control at an early hour today. More than two hundred houses and shops in the district surrounding the great Mosque of St. Sophia, were destroyed. The mosque itself appears to have suffered no serious harm.

News of the Balkan war is becoming extremely meagre. Dispatches from Constantinople are subjected to long delays and strict censorship. One of the cable routes has been interrupted near Pera for several days. Enver Bey, the young Turk, who was believed yesterday to have been wounded by would-be assassins, telegraphed to friends today denying the report.

The tension between Roumania and Bulgaria in connection with the Balkan situation has become acute. The European powers, however, have not taken steps both at Sofia and Bucharest to lessen the friction and an offer of mediation between the disputants is pending.

WILL FIGHT REPEAL TEACHERS' PENSIONS

Bitter Opposition to Senator Teasdale's Bill to Repeal Retirement Fund Act.

[SPECIAL TO THE GAZETTE.]
Madison, Wis., Feb. 18.—No more bitter opposition to pending legislation will be offered at this session than that now organized to defeat Senator Teasdale's bill repealing the teachers' retirement fund law. Teachers' pensions became a reality only after the hardest kind of fight through two legislatures. Since the law was passed in 1911, hundreds of teachers have accepted its provisions and made their pro rata payments to entitle them to its later benefits.

The prospect of the loss of their earnings through legislative action is causing intense feeling against the advocates of repeal. A school teacher at Mazomanie, Dane county, where she taught for fifty years, came to Madison a few days ago with \$450—her obligation to the pension fund for 36 years, to pay it into the "state treasury." She retired a year ago on the assumption that the state pension law was permanent. If the law is repealed, she says, she will be out her year's salary. She says hers is one case in many, and that scores of the oldest teachers in Wisconsin retired a year ago feeling that they were amply protected under the provisions of the new law, which now seems to be threatened.

MADERO REPORTED READY TO RESIGN HIS OFFICE?

ASSIGN TO MILITIA
THE YACHT "SYLPH"

United States Naval Craft Will Be Stationed at Ashland Harbor—Now at Washington.

Madison, Wis., Feb. 18.—The adjutant general has received information through Lieut. Commander Theodore W. Werder, commanding the Wisconsin Naval militia, that the navy department will issue to the state of Wisconsin for the use of its naval militia the converted yacht Sylph, now at the Navy yard at Washington on special service. The Sylph has a displacement of 152 tons, is 123 feet 8 inches long, has a 20-foot beam, mean draft of 7 feet six inches, and a speed of fifteen knots. After the opening of navigation on the Lakes, the ship will be taken to Ashland, Wis., which harbor will be her station.

The strength of the Wisconsin Naval militia as authorized by law is four divisions, commanded by Lieut. Commander T. W. Werder of Ashland, with Lieut. Henry Eitschenauer of Ashland as executive officer. The first division at Ashland is commanded by Lieut. Henry Johnson; the second division at Washburn by Lieut. H. H. Peavey; the third division at Bayfield by Lieut. J. P. Jugelis, and the fourth division, now in process of muster is at Ashland, is to be an engineer division.

These divisions have been fully armed and equipped by the Navy department. The first and second divisions were on cruise last year in the U. S. Steamer Essex for fourteen days, and a detachment of these divisions were in the water in the service last fall and were part of the crew of the Battleship Iowa during the naval review and cruise in New York harbor and the return to station.

TOWN CHAIRMAN IS DEFENDANT IN SUIT

Ashland County Township Seeks to Recover \$13,000 Alleged Due From Former Chairman, Now Missing.

[BY ASSOCIATED PRESS.]
Ashland, Feb. 18.—The case of the town of Gordon against L. B. Gordon, the Glidden State Bank and John and Henry Fleischbein was today dismissed as to all of the defendants except E. B. Gordon, the former chairman of the town board. The application was made by the plaintiffs' attorney before Judge McCully. The town, through its attorney, is seeking to recover a large sum of money which it claims was wrongfully appropriated by Gordon while he was chairman. Judgment is asked for \$13,500, while new suits will be commenced against the Glidden State Bank and John and Henry Fleischbein asking to recover in the neighborhood of \$25,000. Gordon is in default of not having appeared in the vicinity since the charges were first made against him.

Ebert's death was due to his excessive size.

PRESIDENT OF MEXICAN REPUBLIC SAID TO HAVE AGREED TO STEP TO AVOID FURTHER BLOODSHED.

FIGHTING IS CONTINUED

Federals and Rebel Batteries Pour Shot and Shell into Each Other—Rebels Still Hold Positions of Vantage.

[BY ASSOCIATED PRESS.]
City of Mexico, Feb. 18.—President Madero agreed today, in principle, to the appointment of a president ad interim. The announcement that Madero had agreed to the appointment of a provisional president was made on the authority of the Mexican foreign minister, Senor Lascurain.

The news of Madero's decision became known in the early forenoon. At that hour the position of the government was weakening and the federal troops apparently becoming demoralized.

Mexico City, Feb. 18.—Firing went on practically the whole night from both the federal and rebel positions. In the total darkness it was impossible to ascertain whether any advantage had been gained by either side. The artillery duel finally ceased at 5:15. No reason for the cessation of hostilities was known.

Up to a quarter past eight the fighting had not been renewed. The tense day of the civil war in the capital found virtually no change in the positions of the antagonists, but it was understood that the federals have received reinforcements.

Important developments are expected to take place in the course of the day. It was found shortly after daylight that the rebels under Felix Diaz had materially extended their lines and were threatening some of the rebel positions.

It was thought that the break in the battle meant merely a change of tactics by the federal commander. It was stated in authoritative quarters that no truce had been arranged.

The government troops today obtained possession of the Y. M. C. A. building which had been in the hands of the rebels since the second day's fighting.

The leaders of the government troops are preparing for aggressive action against the rebel position. It is said they intend to use dynamite grenades and mortars, throwing dynamite shells. This is virtually what was announced by President Madero last night.

One rebel battery has been placed in a position west of Nizaa street within a block of the United States embassy and another four blocks east of the embassy.

Up to nine, however, the batteries as well as the federal cannon had maintained silence.

The situation of the government forces became so critical that one strong detachment of federal troops retired from the capitol before noon and marched in the direction of Cuernavaca, forty miles to the southward.

Desultory cannon fire from both the rebel and federal positions was still in progress at noon. The belief, however, was gaining ground that a settlement of some kind would be reached before midnight.

HALL & HUEBEL

TO COMPEL RAILROADS TO PAVE BETWEEN RAILS

[SPECIAL TO THE GAZETTE.]

Madison, Wis., Feb. 18.—A law to compel street railway companies to pay for the paving of the space between the rails and one foot on each side thereof was proposed this morning by Assemblyman Phil Gannon of Superior.

Another bill by Mr. Gannon today is designed to make a Minnesota corporation which derives profits from Wisconsin business to contribute more to the up-building of the Wisconsin community which it serves. The Duluth Street Railway company, a Duluth corporation which operates the Superior street car line, is directed by his bill to maintain a repair shop for its Superior equipment in the city of Superior, to give employment to Superior citizens. At present Duluthans are given the preference. The bill also requires the company to open an office in Superior, so that Superior patrons may eliminate frequent trips to the Duluth side.

The KITCHEN CABINET

DIGNITY comes not from possessing honors, but in the consciousness that we deserve them.

The greatest truths are the simplest and so are the greatest men. —Hare.

SOME PLAIN DISHES.

A plain beef stew is an appetizing dish when nicely prepared, and one which gives variety.

Beef Stew.—Cut all the fat from the meat and put it into a frying pan to try out all the fat. To a pound add a half of the meat allow a large onion cut fine, two tablespoofuls of minced carrot and the same of celery. Cut the meat in small pieces. Put the vegetables into the fat of the pan and cook until well heated through, then add the meat, which has been rolled in flour, and cook until well browned; add two tablespoofuls of salt, a few dashes of cayenne pepper and water to just cover. Set on the back part of the stove where it will keep hot for two or three hours. The last hour add a pint of sliced potatoes, and when the potatoes are done, serve at once.

Apple Croquettes.—Add half a cup of bread crumbs to a pint of thick sour apple sauce, mix well and shape in balls, dip in egg and crumbs and fry in deep fat.

Brown Bread.—Take two cups of graham flour, a cup of white flour, a cup of nuts and a cup of raisins mixed, a tablespooful each of soda and salt, a tablespooful of baking powder, half a cup of molasses, and a cup and a half of sour milk. Bake one hour in a slow oven.

Corn Souffle.—Melt a tablespooful of butter and stir in a tablespooful of flour; when well cooked add a pint of hot milk, poured on slowly; add one by one the yolks of three eggs, beating well. Add a cup of corn chopped or put through a meat grinder; season with salt and cayenne. Fold in the stiffly beaten whites of the eggs and put the mixture into a well-greased baking pan, set the pan in hot water and bake twenty minutes. Test it with a knife—if it comes out clean the souffle is done.

JANESVILLE PARTY VISITED ROCKFORD

Guests of the Rockford Business Men At Dinner at Elks' Club and Attend Opening of Big Exhibit.

Rockford business men were hosts to several hundred visitors yesterday parties from Belvidere, Elgin, Springfield, Chicago, Beloit and Janesville, being their guests of the Forest City boosters who did everything to make their visitors stay in their city pleasant. It was the occasion of the formal opening of the Made in Rockford exhibit held at the Auditorium. The Janesville party, thirty-six in number, travelled on a special car, and was met by the Rockford Interurban General Manager Sparks of that company being in charge, and associated with him C. C. Schockley, general passenger and freight agent of the road. The party left Janesville at three thirty-five and reached Rockford at five. They were immediately escorted to the new Elks' Club house, where they were welcomed by the reception committee in waiting and given the courtesies of the entire club house. This handsome structure was recently constructed and costs a hundred and five thousand dollars. The lodge has eight hundred members who pay annual dues of twenty dollars, with the initiation fee of fifty dollars. The lower floor is arranged for cloak rooms, reception hall, library and parlors with a spacious billiard room with ten tables. The lodge room is on the second floor, with a stage, scenery, handsome lighting and leather upholstered furniture. In the basement were more coat rooms, locker rooms for the members and the grill room, at which some three hundred odd members and visitors were dined last evening. Two large tables were set the length of room and two down odd alcoves seating six, were all occupied. A piano furnished musical inspiration and during the course of the dinner, songs were sung by impromptu quartettes and the choruses joined in by all. It was a delicious dinner and enjoyed by all.

Following the dinner the party assembled in front of the club house and headed by the band marched to the Auditorium where the formal opening of the exhibit took place. The exhibits were most interesting and arranged around the hall in a manner similar to the exhibits of the past shows of the "Made in Janesville" weeks. Every courtesy was shown the visiting delegations and after an hour spent inspecting the exhibits they returned to the Elks' club where an entertainment was given in the spacious lodge rooms. Thos. S. Nolan was called upon to represent Janesville and gave a brief talk as did other visiting representatives of various delegations. The party returned by their special car to Janesville reaching here shortly after midnight. One of the pleasing features of the entire afternoon and evening was the warmth of the welcome given to the visitors by every Rockford man. Each one seemed to take a personal responsibility upon himself to be an enterprising committee of one and the result was most successful. Eliza Thayer, S. R. Smith of the Rockford Interurban Company and Secretary Brown of the Rockford Chamber of Commerce, were particularly in charge of the reception of the guests. Those who went from Janesville were the following:

F. E. Lane, J. K. Jensen, P. J. Macat, H. L. McNamara, C. A. Buchholz, P. H. Korst, Herbert Ford, Louis Levy, Geo. Caldwell, W. S. Squires, A. J. Gibbons, H. E. Murdoch, J. C. Nichols, F. H. Jackson, E. C. Baumann, E. T. Fish, J. Stern, Joseph Connors, Edward Ameringer, Jules Levy, F. W. Zimmerman, Burns Brewer, C. L. Miller, A. T. Rotstein, T. R. Murphy, David Atwood, G. C. Olin, T. S. Nolan, Fred J. Baker, E. Q. Bangs.

FORMER JANESVILLE WOMAN HOSTESS ON LINCOLN DAY

Mrs. A. W. Slocum formerly of this city was one of the hostesses at a special entertainment to commemorate Lincoln day given to the members of the Eau Claire Woman's Club. The event was largely attended by the club women and a novel program was enjoyed.

The Best Treatment for Itching Scalps, Dandruff and Falling Hair

To allay itching and irritation of the scalp, prevent dry, thin and falling hair, remove scales, scabs and dandruff, and promote the growth and beauty of the hair, the following special treatment is most effective, agreeable and economical. On retiring, comb the hair out straight all around, then brush at the sides and make a parting, gently rubbing Cuticura ointment into the parting with a bit of soft flannel held over the end of the finger. Anoint additional partings about half an inch apart until the whole scalp has been treated. The purpose being to get the Cuticura ointment on the scalp skin rather than on the hair. The next morning, shampoo with Cuticura soap and hot water. Shampoo alone may be used as often as agreeable, but once or twice a month is generally sufficient for this special treatment for women's hair. Cuticura soap and ointment sold everywhere. Sample of each mailed free, with 25¢ Skin Book. Address "Cuticura," Dept. 3, Boston.

—Tender-faced men shave in comfort with Cuticura Soap Shaving Stick, 25¢. Sample free.

EAST IOWA DIVISION IS AWARDED SAFETY BANNER

The beautiful and costly banner which the Northwestern Company gives to the division having the least number of accidents in proportion to its mileage has been awarded to the Eastern Iowa division for their efficient work of accident prevention last year. This banner represents great honors to the employees on that division for the rule of accidents all over the line has diminished over fifty percent in the last three years. This banner was won by the Wisconsin division in 1911 and the Sioux City division in 1910.

C. M. & St. Paul. MORRISON IS TRANSFERRED TO THE CHICAGO DIVISION

Superintendent of Mineral Point Division Gets New Appointment—Other Changes. E. W. Morrison, former superintendent of the Prairie du Chien and Mineral Point divisions has been transferred to the Chicago and Milwaukee division. Mr. Morrison is well known among the Janesville railroad men and has been an enthusiastic worker in pushing the safety work in his first movement. N. P. Thurber, who was train master on the Racine and Southwestern division, has been appointed to succeed Mr. Morrison. Mr. Morrison replaces J. M. Oxley, who has been transferred to the Kansas City division.

NEW SYSTEM ADOPTED ALL TRAINS WILL BE CHECKED

The Northwestern has now adopted a system of train auditing that will give the conductors clear cut checks on their receipts or tickets tally with the number of passengers aboard. This new plan will eliminate the old form of secret service or so-called "spotters." The object of the new manner of checking trains is to prevent mistakes and keep up the standing of the employees rather than dragging them down. The system established corresponds to that followed in auditing the accounts of station agents and in examining affairs of city banks. The work of checking trains will be done under the supervision of the White Auditing company, which has always been strictly a Northwestern proposition. Representatives of the auditing concern will board trains any place and after showing conductors the credentials will check up their accounts. The auditors, 20 in number, are trained, being familiar with tickets and forms, rather than detectives, and their work will be in the open, removing the odium that has always attached to the checking of a passenger train secretly.

Chicago & Northwestern.

The officials of the Northwestern company have been putting in their efforts to secure more stringent laws governing trespassing. Whenever a case of this nature is brought up before the courts the guilty party is given a lecture, or if the offense is a repeated one, a slight fine. Every city has its cripples or loses its young citizens because of the habit of "filching cars." The General Safety Committee of this road has circulated letters to the Municipal judges in and around Chicago giving them reasons why more and better laws should be made more rigidly enforced. There has been a total of 88,733 persons killed, 94,046 injured while trespassing during the last twenty years. This amount totals 182,779 people more than was killed in battle during the Civil War, and is over twice the population of Rock county.

Only a small proportion of the killed and injured—less than 50 percent are professional transgressors but the balance of the killed and injured are citizens using the track for convenience or playgrounds. Many accidents of this kind are occurring in Chicago, a large proportion of them on elevated tracks. The primary purpose of building the elevated was to prevent accidents of this nature but still they are on the increase. Something should be done so as to give the railroads more power to keep citizens off the rightway.

FORUM SOCIETY ELECT OFFICERS LAST NIGHT

Fred Cummings Named President of High School Organization for Remainder of Year.

The Forum Literary society held their last meeting under the direction of the old officers last night and next Monday night will start the second semester with new officers in the chair. The meeting was a short one, as there was no program, the election taking up the time. The officers elected last night were as follows: President, Fred Cummings; vice-president, J. Stewart; secretary, Colton Sayles; treasurer, Karl Frick; sergeant at arms, Stewart Mount; clerk George Spohn; chairman standing committee, Roy Cannon; second member, Carl Schoof; third member, Huber Wesley; chairman debate committee, Walter Green; second member, Lytle Beard; third member Willard Bennett.

The Forum have had some fine meetings since last September, and it is hoped that this procedure will be continued under the new officers.

BACK FROM VACATION IN WEST AND SOUTH

City Engineer C. V. Kerch Returned Sunday Night From Extended Trip—Western Cities Progressive.

City Engineer C. V. Kerch returned home Sunday night from an extended vacation to the west, the Pacific coast, and the South, having been away from Janesville since before the holidays. He was accompanied on the trip by Mrs. Kerch who is expected to return from Chicago this evening. Among the cities they visited were Denver, Salt Lake City, Everett, Washington, Red Bluff, California, Los Angeles and San Diego. A side trip was also made to Victoria, British Columbia. Most of their time was spent at Santa Anna, California, the home of Mr. Kerch's parents, and at San Diego, where his brother resides. Returning they travelled via the Southern Pacific, making stops at San Antonio, Houston, New Orleans and Vicksburg. At Los Angeles Mr. Kerch met James McClain, formerly alderman from the Fifth ward of this city, and at New Orleans, Wilson Lane, who was on his way to California.

"Western cities are intensively progressive," said Mr. Kerch this morning when requested to give his observations. "Their citizens are all boosters. They are here to improve their cities for municipal improvements, public buildings, parks, playgrounds, and are willing to tax themselves to an extent that would not even be considered by most cities of the East and Middle West."

"Legislation in the Pacific coast states is very favorable to wide municipal activities and municipal training. San Francisco has its municipal band and even motion picture shows and now operates its own street railway. Los Angeles is completing a water supply system that will bring water to the city from a lake in the mountains nearly two hundred miles away. This will also be used to generate large quantities of electric energy which will be conveyed to the city and sold. The utilization of water power for the generation of electric current is playing a notable part in the industrial development of the West. The smallest towns reached by the transmission lines are brilliantly lighted."

"The impending completion of the Panama canal is resulting in a boom for all the west coast cities, said Mr. Kerch. San Diego, being the first port in the United States north of the canal, is enjoying the most rapid growth, but Seattle at the other extreme, obtains a generous share of the boom."

Asphalt is the characteristic pavement in the cities of the West and South. Climate is favorable to its use and its cost is less than in the interior cities as it is shipped by water at small expense. Seattle was the only city in which Mr. Kerch saw a large quantity of brick used and this was necessitated by the heavy street grades. Great attention has been given to the improvement of country highways which in the vicinity of Los Angeles and Oakland have been made dustless by a generous use of the native asphaltic oil.

The city engineer visited several large public works that were in course of construction, conferred with the engineers, and received many valuable ideas and reports. Public work in general costs a great deal more in the West than in the East because of the higher cost of labor which is well organized and very efficient.

ALL YOU NEED IS A CASCARET TONIGHT

No Sick Headache, Bilious Stomach, Coated Tongue or Constipated Bowels By Morning.

Turn the rascals out—the headache, the biliousness, the indigestion, the sick, sour stomach and foul gases—turn them out tonight and keep them out with Cascaret.

Millions of men and women take a Cascaret now and then and never know the misery caused by a laxative, clogged bowels or an upset stomach. Don't put in another day of distress. Let Cascarets cleanse and regulate your stomach; remove the sour, undigested and fermenting food and take that misery-making gas; take that excess bile from your liver and carry out of the system all the constipated waste matter and poison in the intestines and bowels. Then you will feel great.

A Cascaret tonight will surely straighten you out by morning. They work while you sleep. A ten-cent box from any drug store means a clear head, sweet stomach and clean, healthy liver and bowel action for months. Children love to take Cascarets because they taste good—never gripe or sicken.

SIDEWALK SKETCHES

THE SOPRANO.
(By Howard L. Rann.)

The soprano is a female songbird who has had her voice cultivated at heavy expense and keeps it in repair by exercising it in front of people who are too polite to back out. Some sopranos have no sense of humor, and insist upon sinking their entire repertory for the benefit of guests who would prefer to try something else.

The soprano voice is a hardy piece of mechanism which will work well in any climate under the fourteen-hour law. It is usually encountered in a raw state, when it is aimed at the international pitch with the mouth wide open and the eyebrows elevated to the second landing.

When a quartet is being sung the soprano stands at the extreme right, west to the front, so that she may throw her voice down the line and prevent the rest of the quartet from winding up in a different key. Sometimes a quartet will start in strict tune with the organ and finish several feet below the pitch, whereupon the soprano will be reproached bitterly by the music committee and advised to invest in an ear trumpet.

Every soprano voice has a range of three octaves, including a costly high C which can be taken out whenever it is needed and hurled at the heads of the congregation with deadly effect. This aggressive practice usually occurs as the close of the offering, and causes the trustees to examine the plastering immediately after the service.

The American soprano never gets anywhere until she takes her voice to Europe and has it brushed and recalcitrated at the rate of \$8 per hour by some high-strung specialist who retails all that is left of the old Italian method, who sends her home with a letter of recommendation and a head register with fuzz on it four inches deep. Many a fine domestic voice, which was getting along well in this country, and pleasing all with whom it came in contact, has been ruined by being shipped abroad and operated upon by some foreign teacher whose prize pupil couldn't sing the scale without the aid of a step-ladder.

NEWELL ASSAILED IN HOUSE REPORT

F. H. Newell.

Charges of incompetence and maladministration of the reclamation service are made in a report sent to the house of representatives this week by the committee on interior department expenditures. The report asks for a congressional inquiry that will deal broadly with reclamation and also recommends during the pendency of the proposed inquiry the removal from office of Director Newell of the reclamation service, Samuel Adams, assistant secretary of the interior, and L. C. Hill, supervising engineer of the reclamation service.

When Burton Holmes recently gave his celebrated travelogue on "Panama" at Orchestra Hall, Chicago, he was seriously interrupted by continual coughing of the audience. Many good sermons, lecture or concert, is spoiled in the same way. No one annoys willingly and if people with coughs, colds, hoarseness and tickling in throat would use Foley's Honey & Tar Compound, they could quickly cure their coughs and colds and avoid this annoyance. It is a splendid household medicine and contains no opiates.

DINNER STORIES

The little dear riding with his mama on the street car, was very restless. His mama allowed him to get on his knees and look out the window. While doing so his feet brushed up and down the skirt of the lady next to him. The skirt was well adapted for such purposes, being corduroy.

"The little dear's mother had been busy chatting. Suddenly she became aware the little dear was being careless with his feet.

"Be careful," she admonished, pulling his feet away. "You'll dirty the lady's skirt with your shoes."

"Oh, never mind," said the lady, with frozen-ice sweetness. "He has them well cleaned by this time."

There is at least one Boston banker who has a measured admiration for Thomas Lawson. "He is always full of quips," says the banker. "Not long ago I attended the funeral of

a millionaire financier—one of those real 'high financiers' whose low methods Lawson loves to turn the light on. I arrived at the funeral a little late. I took a seat beside Lawson and whispered: 'How far has the service gone?' Lawson, nodding toward the clergyman in the pulpit, whispered back: 'Just opened for the defense.'"

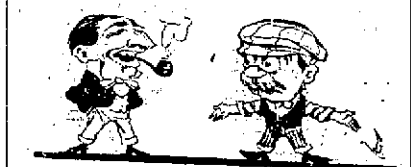

One day it was raining very heavily in Berlin, and a wealthy merchant, on leaving the exchange, hailed a cab and asked to be driven to a distant part of the city. On the way the merchant discovered that he had forgotten to put his purse in his pocket. What was to be done? On reaching his destination he out of the cab and said to the driver: "Will you please give me a match? I have dropped a goldpiece on the floor of the cab." Instantly the cabman whipped up his horse and soon disappeared round the next corner."

THE DAILY NOVELETTE

THE SOLUTION
"Drizzle and rain! Drizzle and rain! Shades of your granny, they're at it again!"

"Be seated, Mr. Milkman," invited the great detective. "How do I know you are a milkman? By the weak and watery expression of your eyes. Nothing stupider. And now I see that you are frightfully upset. Won't you take something?"

The milkman took a chair. "It's ink spots," he said, "black ink spots. Br-r-r! Black ink spots. Oh! Black ink spots! I am afraid I am an object of vengeance." The terrible black hand is after me; I feel it in my bones; I feel it in my ink spots. Wherever I look there are ink spots. I cannot take up a

garment without finding it covered with ink spots. If I look at the ground there is an ink spot at my feet. Br-r-r! Ink spots! Oh! Ink spots! Plainly, he was becoming hysterical.

The great detective leaned over, and, tickling the milkman jovially in the ribs, whispered something in his ear. The milkman's face, so dark a moment before, now lightened up so that all his features were distinctly visible. What the great detective whispered was: "Your fountain pen leaks."

Sport Shop Shots

When Packey McFarland and Jack Britton met in Chicago, recently they greeted each other like long lost brothers, and to satisfy the curiosity of mutual friends were measured and found to be exactly the same height and reach. Although they didn't step onto the scales, that being a ticklish matter among fighters, they looked to be about equal in weight. The boys acted toward each other and looked very much like the famous "heavenly twins."

George Stovall, manager of the St. Louis Browns, has found another thing to worry about. He says he has so many players under age that he is afraid the police will raid the St. Louis grounds and arrest him for violating the child labor law.

State Senator Ballou, of Lagrange, Ind., is no great friend of baseball. He has introduced a bill in the Indiana legislature providing for the repeal of the law providing for Sunday baseball. If passed, this measure would result in the death, or near death, of the Indianapolis club of the American association, which has the best Sunday attendance of any club in A. A. league.

"Kid" Williams, the Baltimore bantam who recently defeated Campi at San Francisco, dreams of the day when he will be champion of his class.

It wasn't so very long ago that Williams shadowed Coulton in a ten-round argument at New York. Williams will meet Johnny Coulton, the present champion, in the near future.

Charley White, the Chicago feather weight, will have another opportunity to show what he's made of on Feb. 28, when he is to tackle Johnny Dundee, the young New Yorker. The bout will take place in New York and will be over the ten round route. White and Dundee met once before, on April 30, 1912, when they went ten rounds to no decision at Syracuse although White won by a large margin.

Manager Connie Mack is a very clever man. It has been figured out by baseball experts that by the use of five dozen baseballs, wisely distributed, he has secured \$50,000 worth of ball players during the past five years. Connie has the habit of sending baseballs to the smaller colleges for important games every year. The consequence being that he gets the first tips on young stars. They say he considered Eddie Collins high priced at \$125.

Leo Kelly of St. Louis is another former lightweight who has outgrown his division. He is about to make his debut in the welterweight class, and hopes to meet Ray Brown of Indianapolis in the near future.

ELKS' TEAMS BEGIN A POOL TOURNAMENT

Series of Games Will Start Tonight—Captains of Teams Fred Baker and C. L. Miller.

Two teams captained respectively by C. L. Miller and Fred Baker, will begin a series of pool games this evening at the Elks' club rooms. There are now seventeen members on each team, but any member of the club who desires may engage in the tournament. Fifty points of straight pool will constitute a game. J. Connell of Baker's team and J. Donahue of Miller's team will formally open the tournament tonight. The following members of the club have entered the tournament: Baker's team: Fred Baker, E. L. ARE NOW SATISFIED AT FOOTBALL RULES

Code Committee Turns Down Changes Fearing More Experimenting Will Distract From Sport.

The work of the rules committee, measured by the many propositions discussed as well as by the few proposals adopted, represents a realization on the part of the members that after years of experimenting we at last have devised an evenly balanced, safe and mighty interesting game according to Parke H. Davis, member of the football rules committee. Mr. Davis was former coach at the University of Wisconsin. The refusal of the committee to adopt several meritorious changes offered was due to a desire to keep the game as it is and to the fear to experiment further in the novelties, however attractive.

The proposal to compel players to be numbered apparently has been made two years in advance of the time. Under the ruling the committee teams may number their players if they choose. It is safe to predict that many of the teams in 1913 will do so.

All of the changes made by the committee were practically unanimous, and there is no doubt whatever about their effects. It is unfortunate that the committee could not agree upon a remedy for a false forward pass. Under the present rules the penalty for an incomplete forward pass or a pass executed within five yards of the line, is the loss of the down, the ball returning to the point where it was put in play.

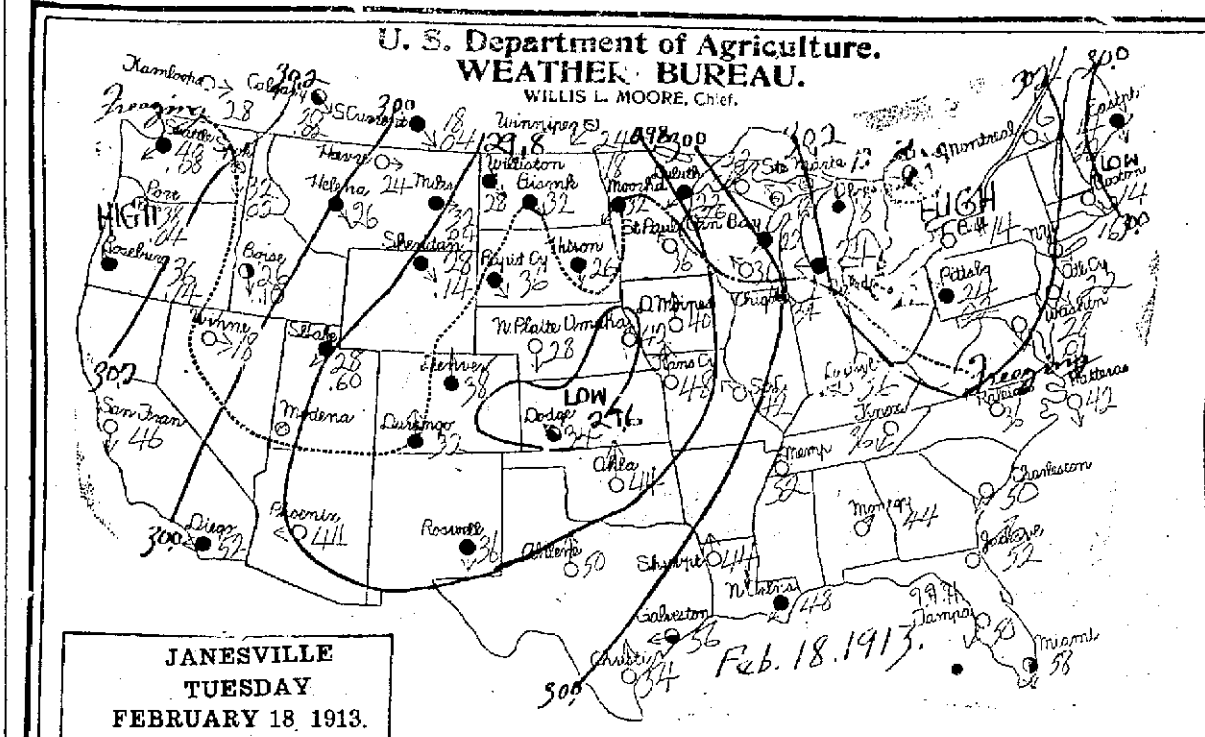

Under the penalty a player who on a running play or on a trick, is about to be tackled for a loss, merely has to pass the ball forward deliberately into the ground, thereby converting his play into an incomplete forward pass, and by gaining the advantage of the penalty regain his lost ground. In other words, here is a penalty that cunning can convert into a premium.

The committee realized this anomalous condition, but believed that owing to the infrequency of its occurrence, it was less to be feared than any remedy so far suggested, which might disorganize the present balance of the game. The matter, therefore, has been left to the thrashing experience of one more season.

On the whole, football is not far from that perfection as a sport which is enjoyed by its comrades, baseball. The defects are only slight, and close to solution.

If you are out of a job, or would like to change your occupation, let a want ad do the snitching for you.

The area of low barometer in the West stretches from Mexico to Canada, and is crossing an inland of warm, moist air from the Gulf of Mexico to flow over the Central states. It is attended by cloudiness and light snows in the Lake region and northern Rock mountains, but fair weather prevails for the most part throughout the center and front of this disturbance. The barometer is high in the East, with clear skies, and temperatures slightly below normal. High barometer prevails on the north Pacific coast, but the wind is from the sea and is accompanied by cloudiness and rainfall.

The Theatre

"THE GIRL AT THE GATE"

An unexpected pleasure awaits the theatregoers of Janesville in the announcement that on Thursday, Feb. 21, at Alvers theatre will be seen "The Girl at the Gate," the sensational hit of the season in the La Salle House, Chicago, which has been forced to abandon a run that promised to break all records in that wonderful little theatre of successful musical productions, owing to the reconstruction of the La Salle.

To those who have not been fortunate enough to visit Chicago for a theatregoer always means a visit to the La Salle Opera House, let it be told that the story of "The Girl at the Gate" concerns mainly the love of Norma Beane, a "down and outer" for a proud beauty who believes him the culprit in a nasty West Point mess, whereas he simply shouldered

the blame in order to save her pride, her brother being the real offender. Her father becomes the head of the Panama Canal Commission, and, through his influence has the son appointed as commander of engineers at the Panama Bay and the canal fortifications. The brother falls into the toils of a pretty Japanese girl whom he believed to be the employee of a bazaar, but who is in reality a member of the Japanese secret service; and she gets from him the plans of the fortifications.

Herbert Cortell will play the part of the grafting deputy, which part was written by the authors, Messrs. Trough and Donahuey. Miss Lucy Weston will be a sagacious English widow, and Miss Cathryn Rowe Palmer will be seen in the role of the Princess of Paradise Isle, in which that eccentric comedienne has achieved the greatest success of her career. Miss Palmer will be remembered by theatregoers as the funny maid-of-all-work in "The Sweetest Girl in Paris." The production will be seen here identically the same as it was given in the La Salle.

HORSE SERIOUSLY INJURED IN A RUNAWAY THIS NOON

Animal Belonging to Michael Goodman Livery Badly Cut About Hind Legs—Buggy Nearly Demolished.

Shortly after noon today a horse belonging to Michael Goodman escaped from its driver, H. E. McCoy of Chicago on Algon Ave., ran about the downtown streets for over half an hour, narrowly escaping collision with a street car, and striking other carriages and pedestrians. When the horse was finally captured on South

River street near the corner of Dodge street, it was found to be seriously cut about the hind legs, three arteries having been severed by its frantic kicking against the front axle. The buggy was nearly demolished, the seat and the front wheels being smashed. The horse was taken to the infirmary of Dr. R. L. Brown for treatment. It has been a quiet animal heretofore and the livery proprietors are at a loss to account for its escapade.

WAKES YOUR BACKACHE VANISH. DRIVES ALL RHEUMATIC PAINS AWAY

New Discovery Eases Stiff, Sore, Swollen Joints and Muscles Relieving Backache and Bladder Discomforts After Few Doses are Taken.

No matter how badly you suffer so they can filter the blood and keep how chronic your case may be, or you well. what has failed to cure you, your pains will leave, your aches vanish and the tortuous killing backache or rheumatism will bother you no more. This is what Croxone, the new scientific discovery, does for sufferers of such troubles. It cures these diseases because it reaches the cause and removes it. It soaks right in through the walls and linings of the kidneys and cleans out the stopped-up, inactive organs like water does a sponge—neutralizes, and dissolves every particle of uric acid and makes the kidneys sift from the blood all the waste matter and poisons that lodge in the joints and muscles to scratch and irritate and cause rheumatism. It starts to work the minute you take it and relieves your suffering the very first time you use it. MEXICO.

Daily dispatches from the City of Mexico fail to show any material improvement in conditions. The rebels and the federals are still fighting it out on the same old line and the life and property of foreign citizens is still much in danger. President Taft has a difficult position to fill just at this time and congress also is sitting over a powder chamber that is ready to burst forth at any moment. The Christian Science Monitor views the situation as follows:

"Some factors enter in that make it very much more than a matter of protecting the lives and property of nationals resident in Mexico. That, for physical reasons, will be no easy task for the army and the navy, if it devolves upon these agencies. But it can be carried through if thought necessary. Or it can be postponed on the ground that civil war does not justify what would practically be invasion of foreign territory and presumably would be interpreted as such, not only in Mexico but throughout Latin America. In doing police duty the United States may bring on a long and costly war, radically and fundamentally change its status toward extension of territory southward, and at the same time deepen the distrust felt by South American people and statesmen."

"But what of foreigners in Mexico? For their protection the United States stands responsible, as sole guardian under an interpretation of the Monroe doctrine which Europe has tolerated to date but may not always uphold, especially if the United States proves inefficient in giving the protection reasonably required. Some of the moral obligations of the Monroe doctrine now loom large, where previously emphasis has been placed upon the privileges conferred."

"A joint move by a number of the powers, for protection of all non-Mexicans in the distracted republic, might run counter to precedent; but if the United States were to arrange for the innovation it not only might diminish its own expense in lives and munitions of war, but it would break the force of criticism by the Latin-American republics, such as is sure to follow any interference, especially if by the United States acting alone. Recognition of other nations by the United States would not necessarily imply abasement of its pride or fundamental change in its general theory of protection as set forth in the Monroe doctrine. It would imply, rather, a new era of co-operation in international policing, whereof the methods are as valid for American as for Chinese conditions."

"The plan proposed today by the Hon. John Barrett, director of the Pan-American Union, has the merit of substituting mediation for intervention. It also has the virtue of including representatives of Mexico, some South American republics and the United States in action looking to restoration of order in Mexico. Latin-American diplomats intimate that by such a course much of the untoward effect following intervention by the United States, acting alone, would be avoided."

"The United States, as a neighbor of Mexico, has special reasons for wishing peace restored. The rank and file of the people north of the Rio Grande have no covetous feelings for territory south of that line. Were its own interests alone at stake, the United States could be more patient and lenient with the Mexicans than it can as trustee acting for the European powers."

THE WISEST WAY.

Under this caption the Chicago Inter-Ocean discusses the Root bill which is before the United States senate relative to the Panama canal

proposition. Mr. Root is one of this nation's big men; he is a deep thinker and far above the jingo element of either party. He looks not only to the present, but to the future, in his present attitude on the Panama canal proposition and the Inter-Ocean agrees with him that it is a question that must be most carefully considered. They discuss the matter in the following language:

"Senator Root argued before the inter-oceanic committee Wednesday for his bill repealing the exemption clause of the Panama tolls act as 'the wisest and best way out of a very embarrassing situation.'"

"It is so. The situation is embarrassing and injurious because persistence in it subjects us to charges of bad faith in our international agreements which are very difficult to meet successfully. How do we come to be in this situation?"

"Undoubtedly a main motive of certain congressmen for having the Panama canal was the desire by its means to hold down the rates of the trans-continental railways. The attempt to exempt our coastwise shipping from Panama tolls was avowedly with that purpose."

"While we do not believe a desire to tear down one line of business to build up another is a proper motive for legislation, let us admit that the motive exists and must be reckoned with. Let us even admit, for the sake of argument, that it is desirable to subsidize ships for the purpose of reducing railway earnings."

"Then why not do so frankly and openly, without subterfuges? Especially when these indirect ways of doing it expose us to the charge of bad faith in a solemn international engagement?"

"Let the advocates of a ship subsidy for the holding down of railway rates introduce a bill to do so directly. Such a subsidy is wholly within the powers of congress. Let the subject be considered on its own merits."

"If the British government challenges us to go to the Hague court on the question we could not refuse without stultifying all our frequent and fervid professions in favor of international arbitration."

"And if we go to The Hague we are practically certain to meet a humiliating defeat there and have most embarrassing precedents established against us."

"If we pass the Root bill we yield to no 'foreign menace.' There is no menace in the British government's attitude. We simply show that we have changed our minds about the best way of using the Panama canal as a regulator of railway rates."

"The Root bill should be passed because it is the wisest and quickest way out of a situation in which no American careful of his country's honor wishes his country to be."

ROCKFORD HOSPITALITY.

Rockford business men played hosts to visiting delegations from a half dozen cities on Monday in a most royal manner. The occasion was the opening of their "Made in Rockford" exhibit, and the guests from away were entertained at the handsome Elks' club, where they were dined and made welcome. Rockford is a growing city and one of the reasons for this is that their business and manufacturing interests work hand in hand for the betterment of civic conditions. Every Rockford man took upon himself the responsibility for entertaining the visitors and the result left a most pleasing impression of the city and its interest in the minds of all.

CARY'S RE-ELECTION.

At the April election this year the voters have an opportunity to cast their ballots for a state superintendent of schools. For this office the present incumbent is a candidate for re-election. His excellent record in this capacity and the fact that he stands for the betterment of the schools of the state and the reduction of the excessive expenditures of the state university, should find him many supporters throughout the state. Mr. Cary should be re-elected and the vote that is cast for him should be of such magnitude that there will be a mistake as to the real attitude of the taxpayers of the state on these questions.

LEGISLATIVE ACTION.

It would take a Philadelphia lawyer to untangle the mixed up jumble of bills that have been introduced already in the legislature and more are yet to come. It seems as though each succeeding legislature tries to make a record for itself in passing ultra progressive and radical legislation, and the present gathering bids fair to set a high water mark for this kind of progressivism.

President-elect Wilson will soon be in Washington and his plans all formally announced. Meanwhile there is much speculation as to who will compose his cabinet. Wisconsin has an aspirant for one of the posts in the person of Davies, who has been endorsed by republican and democratic members of the legislature. This in itself is a signal honor even if Mr. Wilson does not appoint him.

There is nothing like concerted action to bring about results. Janesville is to hold a "Home Coming" next July and it is not a bit too early now to make plans for the big event. When Janesville entertains it welcomes the world and the fame of the city is spread from one coast to the other by the novelty of its celebrations.

There is no reason why Janesville should not double in population inside the next ten years if everyone gets together and boosts. One way to do this is to unite your efforts with that of the Commercial club by becoming a member.

SICKNESS INSURANCE IN CERTAIN TRADES

Provided for in Bill Calculated to Protect Men Who Are Employed in Dangerous Work.

[SPECIAL TO THE GAZETTE.]
Madison, Wis., Feb. 18.—A law to provide for sickness insurance in certain dangerous trades was proposed in the legislature today by Assemblyman Holmes of Dane county. The state industrial commission is empowered to compile a list of the industries of the state in which four or more persons are exposed to injury to health from lead or lead compounds, fibrous, metallic, mineral or tobacco dust, arsenic or germs from rags. The bill provides for a scheme of sickness insurance in these trades.

This is a common legislative enactment in European countries but has received little consideration in the United States. The bill provides that after Sept. 1, 1913, any employer may notify the industrial commission that he intends to contract with every employee affected "to withhold sufficient wages to pay said employee's insurance premium as provided in this act, and to contribute each pay-day, at least monthly, from his own funds an amount equal to one-half per cent of the wage of each employee, not exempt, and one per cent for the employee from wages withheld and remit same to the state treasury each pay-day."

The contributions of the employer and employee shall constitute a fund from which sickness benefits are to be paid. In each locality in which there is a trade dangerous to health, the industrial commission is empowered to appoint a physician to look after the health of the employees. When sickness occurs, the employee is to receive 65 per cent of his usual daily wages out of the fund in the state treasury. This benefit may not be continued for more than twenty-six consecutive weeks nor more than thirty weeks in any one year. No employee may be entitled to benefits for sickness found to be due wholly or in part to the use of alcohol, opiates, or immorality.

Parcels Post Maps at Baker's

Parcels Post Maps can be secured at the Gazette branch office, Baker's Drug Store, free, by paying back subscription and a year in advance or paying another year if already paid in advance. Map price is \$1.00. Sold to Gazette patrons, 25c, or by mail, 35c.

PARCEL POST

HOW TO USE IT.

(The new parcel post law includes some perplexing provisions. The Gazette is from day to day presenting a concise explanation of some of the more important sections of the law.)

Parcels must be prepared for mailing in such a manner that the contents can be easily examined.

A parcel must bear the name and address of the sender, preceded by the word "From." It is also permissible to write or print on the covering of a parcel, or on a tag or label attached to it, the occupation of the sender, and to indicate the character of the parcel, but ample space must be left on the address side for the full address in legible characters and for the necessary postage stamps. If a parcel is sealed or otherwise closed against inspection, it is subject to the first class rate and will be treated as first class matter. Such parcel must not exceed four pounds in weight. Parcels containing two classes of mail matter are chargeable at the rate that will require the greatest amount of postage.

The Gazette Parcel Post Map gives the zone limits, rates and all the provisions of the law. It is a good Geographical map of the United States and for a quick comprehension of the parcel post law is invaluable. This map is now on sale at 25 cents, if called for at the Gazette office, or 35 cents by mail. The map is FREE if you pay one year's subscription in advance to the Daily Gazette.

The weather for 1913.

All the other prophets having taken a crack at the weather prognostications for 1913 we venture to present those of Prof. Goosebone, our own personal prophet who prognosticates exclusively for this column of uplift. Prof. Goosebone knows as much about it as do the parties who make the almanacs. Following are his predictions:

The weather of February will be variable. Some days it will be cold and other days not quite so cold or colder, as the case may be. A safe and sane Washington birthday is expected.

It will be quite windy in March. There will be some rain in April.

In May there may be some rain and considerable buck beer, which is more to the point.

The weather in June will be just as disagreeable as possible as there will be several weddings during the month.

July and August will, according to all signs, be some warmer than January. There will be very little snow during these months.

September and October will be pleasant, but the same months last year, because there will be no presidential campaign in progress.

The weather for November and December will be about as usual and perhaps a little more so.

Farmers and undertakers and others who depend a great deal upon the weather for a livelihood, can rely upon this prediction absolutely.

MORE SEVERE PENALTY FOR CARRYING WEAPONS

[SPECIAL TO THE GAZETTE.]

Madison, Wis., Feb. 18.—A bill making more severe the penalties for carrying concealed weapons was offered in the lower house last night by Assemblyman William E. Walsh of Milwaukee. The present punishment of six months in jail is made "six months to one year" for the first offense, while a second offense is punishable by a state prison term from five to six years, or a fine not exceeding \$500. The bill, of course, does not apply to officers.

Absolute prohibition against carrying concealed weapons is not ordered by the bill, which makes it unlawful for any dealer to sell firearms of a concealable size "unless the buyer shall produce and deliver to such dealer a certificate from the county clerk that he has registered his name and address together with a statement of his purposes with such firearms." For violation, the dealer may

BRIEF LOCAL NEWS.

Recovering From Injury: William Phillip, who injured his leg by tripping over a switch in the Northwestern yards Saturday afternoon, is very much better and will be able to resume his work as switchman in a few days.

Council Meeting Brief: The meeting of the council this afternoon promised to be a brief one as the allowance of the usual bills was the only business to be transacted. The bills to be allowed totaled \$660.77, the largest item in which was a lumber bill from the Fifield Lumber company.

Demolishing House: Work has been started on the wrecking of the old residence property at the corner of Wall and North Jackson streets, recently sold by the city to William Caldwell of Evansville.

Fire Engine Tested: The fire engine at the west side fire station was given a periodical test at the flame near the blodgett mill this morning and was found to be in good running order.

Wedded by Justice: Kila Brody and Edith McLean, both of Benton, Ia., secured a special permit at the court house this afternoon and were married by Justice Charles E. Lange in his office.

County Court: Various matters were up for settlement in the county court today, special February term day. Among out of town attorneys here were: Judge J. B. Clark, J. C. Rood, Owen Riland, and T. D. Vailsey of Beloit and George W. Blanchard of Edgerton.

TO COMBINE FAIR WITH GRAIN SHOW FOR A BIG EVENT

Annual Mid-Winter Exposition of Farmers' Products Will Be Held at Auditorium First Week in March.

Secretary Frank Lane of the Commercial club and the directors of the Rock County Grain Growers' Association, of which N. J. Baessler, town of Beloit, is secretary, are planning to hold the annual mid-winter fair and grain show the first week in March.

Extensive plans are already under way to make the affair a success from every point of view and an attractive premium list will be issued soon as the merchants and others can be interviewed. The show will be held in the auditorium on South River street where there is ample room to display the products.

In addition to the grain show there will be displays of vegetables, preserves and canned fruits, cookery of all kinds, and fine needle work so that the women may have an equal interest with the men in the affair.

"We want to make this a big thing this year," said Mr. Baessler, who was in the city today. "Grain will be exhibited in bushel lots and every farmer should make it a point to bring an exhibit of some kind. Our association wants to interest the farmers in the possibilities of raising the best grains right here in Rock county, providing the proper care is taken in the selection of seed."

Mr. Baessler stated that he planned to have his world's championship sample of rye on which he received honors at the Charleston exposition, at the local show as well as his prize samples of corn, ten ears of yellow and ten ears of white corn. The sample of rye will be sent to the Milwaukee chamber of commerce where it will be on exhibition. Mr. Baessler's prize sample of barley will also be exhibited in the chamber of commerce rooms.

JOHN J. HALL DIED EARLY THIS MORNING

Well Known Foreman of Rock River Woolen Mills Succumbs to Five Weeks' Illness—Long in Service.

John J. Hall, for thirteen years foreman of the Rock River Woolen Mills, died at 6:30 this morning at his home, 601 Center avenue, after a five weeks' illness. Mr. Hall was fifty-seven years of age, having been born in Pennsylvania, December 18, 1856. He came to Janesville thirteen years ago and has resided here continually ever since that time. Mr. Hall began work as foreman under the late William Jones, twenty-five years ago, continuing in that position when Mr. Jones assumed charge of the local plant, and after his death when his son, Arthur Jones, became manager. He had been a member of the Ancient Order of Hibernians for thirty-six years and was a faithful worker in that organization. Surviving him are his wife and five children, three daughters, Elizabeth, Mary, and Clara Hall, and the sons, John and Frank, all reside in this city. Funeral services will be held at St. Patrick's Roman Catholic church at 9 o'clock Thursday morning. Interment will be made in Mt. Olivet cemetery.

FIRE ALARM REPEATER HAS BEEN RETURNED

Shipped From Factory in Massachusetts Where It Was Sent For Needed Repairs.

Chief of the Fire Department H. C. Klein is breathing easier again in consequence of the return of the repeater of the fire alarm system which was sent to the factory in Massachusetts for needed repairs about three months ago. It will be re-connected with the alarm system by tomorrow night. While the repeater was away the alarm system was in an unreliable condition, especially in damp weather, through danger of a grounding of the current. Fortunately the alarm system never failed to respond and no trouble of a serious character was met with.

CALHOUN TO QUIT POST IN FAR EAST

William J. Calhoun.

William J. Calhoun of Chicago, United States minister to China, is returning to this country and has signified his intention of retiring immediately from the diplomatic service. This decision puts an end to the talk of President Wilson retaining him in the diplomatic service. Mr. Calhoun was appointed minister to China by President Taft in December, 1909. Although without previous experience in diplomacy within a year after his appointment he had distinguished himself by his wise handling of delicate international situations.

MANY RAW FURS ARE MARKETING IN CITY

Janesville Dealers Handle Thousands of Mink, Skunk and Muskrat Pelts During Season.

Although it is a fact not generally known, Janesville has been one of the principal markets for raw furs of pelts in the northwest. One dealer has handled this season over 12,000 mink, 2,000 skunk and 15,000 or 20,000 muskrat hides. The fur trade at the present time is slack owing to the extreme cold weather and furs in the raw state are slow in being marketed. The prices on the pelts have been high this season, especially on mink and skunk as long black fur has been the fashion this winter.

There has also been a heavy demand on the furs that are used as substitutes for mink and skunk.

While the territory around Janesville furnishes only a small part of the furs that are marketed here, the country in the swampy portion of northern Illinois, neighboring the Mississippi river and the region in the northern part of this state have been the chief sources of supplies for the fur dealers. Not much trapping is done in this vicinity with the exception of some profitable catches at Lake Koshkonong.

The trapper who finds a good mink in his trap has the equivalent of a five dollar bill, the prices on this animal's pelt ranging from \$3 to \$7. Muskrat, which appear on the market to a great extent as brook and river mink, bring forty and fifty cents a hide. Skunk bring \$2.75 and \$3. The little white weasel which is used as an ermine, for its fur furas a pure white except for a black spot on the tip of the tail, sells from twenty-five cents to a dollar.

IS INVESTIGATING LOCAL CONDITIONS

Superintendent Phillips of Wisconsin Humane Society in Janesville to Take Prompt Action.

J. L. Phillips, superintendent of the Wisconsin Humane Society, with headquarters in Milwaukee, arrived in Janesville today to make a thorough investigation of conditions alleged to exist here. Mr. Phillips has a state wide commission, backed by the statutes and his first act on arriving in Janesville was to seize and condemn an aged horse belonging to Dennis Hayes of Milton, which was suffering from box spavin in both hind legs and had been driven into town today suffering intensely. Mr. Phillips found Hayes but he refused to talk to him and he then had the animal examined by a veterinarian and on his statement he could do nothing for the poor beast shot it. Later Hayes arrived and admitted he had done wrong in using the mare and this was all that saved him from arrest.

Mr. Phillips comes to Janesville at the suggestion of Governor McGovern, who had heard rumors of certain cases that existed here and will investigate them at once. In one family two boys are being badly treated and in a second a child is brutally handled by its step-father. In both cases, the reports are correct, the children will be cared for and court action taken against the inhuman parents. Mr. Phillips is stopping at the Myers Hotel and will remain in the city several days.

There will be a meeting of the members of the local humane society at the parlors of the Myers hotel this evening, the society will be reorganized as a branch of the state society.

Mr. Phillips was invited here by Mrs. John Peters who was anxious to

DIET AND HEALTH HINTS

By DR. T. J. ALLEN
Food Specialist

DIET IN KIDNEY DISEASE.

A reader who suffers from kidney disease says he has become impressed by reading these hints that diet is important in his case but that he has been unable to get the desired information as to what to eat and what to avoid. By going over a file of the paper many suggestions will be found. The chief purpose should be to keep the protein element of the diet down to the lowest working proportion, not more than ten per cent, and to get the protein from milk and cereal rather than from meat, eggs and fish. The less salt in the food the better. None is necessary. Energy should be conserved by avoiding excessive variety and such heavy foods as boiled cabbage, potatoes, pies, cakes and gravies. The breakfast may be of fruits, dinner, cereals and milk and supper of sugar fruits—figs, prunes, dates, bananas, etc. Much depends upon the peculiarities of the case, which a local physician will be able to determine.

HEALTH WARNING.

Make every effort to avoid having damp chilled or wet feet. Chilling the feet results in congesting the internal organs, and inflammation of the kidneys and bladder, with rheumatic twinges and pain in back, generally follow. Use Foley Kidney Pills. They are the best medicine made for all disorders of the kidneys, for bladder irregularities, and for backache and rheumatism. They do not contain habit forming drugs, Tonic in action, quick in results. Badger Drug Co.

MILTON HIGH SCHOOL FIVE MEETS PALMYRA TOMORROW

Last Home Game of Season Promises To be a Thriller—Other Milton News.

[SPECIAL TO THE GAZETTE.]
Milton, Feb. 18.—The local high school basketball team will play what will probably be their last home game with outside teams Wednesday night in the College Gym when the team meets the fast Palmyra five and the Milton second team plays the Junction seconds.

Palmyra won at Palmyra in a close game and Milton is out to retrieve the defeat this time; as Palmyra never gives up, the game will be worth going to see. Palmyra recently played one of the contenders for the championship honors an 18-2 second half after being swept off their feet 19 to the first half of an exciting game. The Junction seconds play a fast game also.

The local high school pupils held a hard-fought social and basketball event in the Milton College gym Saturday night after the basketball game with Janesville. The judges gave the victory to most comical make-up for boys to Arthur Curtis and for the girls to Miss Myrtle Fox. J. F. Whitford auctioneered the baskets, one combination one selling for over five dollars. The basketball team took in \$26.02 from fines and the sale of baskets. The following program was rendered:

Throw Away His TRUSS!

Strenuous Old Men Captain Fools the Doctors And Cures Himself.

No man, woman or child who is ruptured—matter how severely or at what age—need despair of being cured.

Throws Away His Truss.

The case of Captain Collings gives encouragement for all sufferers from rupture. He suffered a double rupture—and was confined to his bed for years. Physicians examined his case and pronounced an operation necessary, but he kept experimenting on himself. Finally to the astonishment of all, he cured his rupture and never had any return of the trouble.

Capt. Collings sends his system to ruptured people. If you will mail the coupon below, (or copy it) he will send you, entirely FREE, a trial of his process, so you can test it in your own case. This costs you nothing, and no ruptured man, woman or child can afford to ignore it.

FREE TEST COUPON
Capt. W. A. Collings,
Box 46 T. Watertown, N. Y.
Please send me one week's test of your system for rupture. This test is to be FREE. I will commence using it at once.

Plans already under headway points to its being a gala day here. Business houses will be decorated; plans for entertaining the shoppers are being matured; Dealers are vying with each other in who can provide the most attractive bargain and nothing will be left undone to make it a day to be long remembered by the shoppers of this vicinity.

Dollar Day

WEDNESDAY, FEBRUARY 26

THE BIGGEST EVENT EVER PLANNED BY JANESVILLE MERCHANTS.

That Dollar Day, Wednesday, February 26, will be the biggest day in the point of attendance and sales that the local dealers have ever experienced is the general consensus of opinion today. The hundreds of inquiries received yesterday about the day and the general interest its announcement has aroused point the way to assured success.

What Is Dollar Day?

It is one day upon which all the merchants of a city combine to offer the public one rousing big sale and to give it added attractiveness a single dollar is made the price of all bargain offers.

The point is to make the day within the reach of every possible customer and it is felt that a dollar is a thing that can be secured and saved for this day by everyone it is possible to reach.

What Dollar Day Offers The Customer

While the day is essentially to allow local merchants to attract crowds to their places of business and to increase their sales, it is to the customer within reach of this city that the day is of real value. The merchant simply turns his goods into money, in many instances at cost or less, while the buyer is allowed the opportunity of, for the one day, buying goods at a figure that must result in a considerable saving. Money saved and expended on this day will purchase far more than it will the day before or the day after. A dollar thus saved is as valuable as one earned.

Dollar Day, if supported by the buying public of Rock County, cannot help but result in an enormous economic saving to the community.

Plans already under headway points to its being a gala day here. Business houses will be decorated; plans for entertaining the shoppers are being matured; Dealers are vying with each other in who can provide the most attractive bargain and nothing will be left undone to make it a day to be long remembered by the shoppers of this vicinity.

The Evening Chit-Chat

WHAT'S IN A NAME?
You have doubtless heard that question a great many times, and it has doubtless meant to you just what it is intended to mean—that there is little or nothing in a name.

As a matter of fact, there is everything in a name. Especially in this day and generation, which is, above all things, the day of advertising the day when names are made to stand for something.

A few months ago the manufacturer of a certain toilet product sold the copyrighted name of that product to another firm, and for the name alone he received \$10,000. Doesn't that sound as though there was something in a name?

Not was that a high price. On the contrary. The names of standard articles which have been widely advertised are frequently valued as high as \$25,000 or \$50,000, and sometimes run into six figures.

Nor is this strange. Think how much names mean to us in our buying.

"I want the Such-and-such brand of stockings," you say to the clerk at the stocking counter. And if he informs you that they are not in stock at present, and offers you something which is just as good, and cheaper, you refuse it. Rather than take any other brand you will hunt for these elsewhere. Why? Because the name Such-and-such Brand has been made to mean a thoroughly honest and desirable article to you.

I read of a bargain sale the other day in which the value of the articles sold at such remarkably low prices? Did I mention, for they were advertised to be of a certain make, and when I found that name stamped upon them I bought at I could afford. Why? Because I felt thoroughly safeguarded by that desirable name.

As you probably know, there are certain shops in Paris whose names have come to stand so distinctively for style and beauty, that people who have had the good fortune to buy a garment from such a shop will rip the label out of it when the garment has been worn out and sew it into a new gown in order to keep the prestige of that name.

There's everything in a name; there's dependability and honesty and reputation, or there's the opposite of these things.

Now, what's in your name—yours and mine?

For undoubtedly our names mean something definite to those who know us, just as surely as these trade names do. Our names are our trade marks. Our words and acts advertise them. Our lives prove their worth or lack of it.

Now what does your name stand for?

When someone repeats something that you have said, do the listeners give it respect because your name stands behind it? Or do they treat it lightly for the same reason?

When the wisdom of some act of yours is being questioned, does the weight of your name incline the balance in your favor?

Surely "what's in a name" is a most important question, when that name is yours.

HOUSEHOLD
HINTS

For a Cold.
Cut an onion in round slices, add one tablespoon sugar, let stand till it draws a juice. This given to children for a cough, is very good and also healing.

For Country Housewife.
To Cure Pork—For 80 pounds pork (shoulder and hams) use three ounces salt-peter, three ounces brown sugar, three pints salt, one ounce soda. Mix all together and rub meat well with mixture. Let it lie five days and repeat until meat has been rubbed three times, then let it lie five days, when hang up and smoke it. Use plain salt on sides.

Putting Down Sausage.—To one gallon water add one cup brown sugar and one-half cup salt; put in sausage, cut into pieces about a foot in length and boil about 20 minutes. Pack sausage into jars. This mixture will be enough to cook four gallons. Pour the water over the sausage, weight down with a plate and tie up; keep in a dry place. This will keep until summer.

Things Worth Knowing.
Cookie Baker—Procure from hardware store a piece of Russia sheetiron (of which dripping pans are made) large enough to reach across oven one way and a few inches wider the other way. Turn up the extra length to make sides by which to handle it. This is just the thing for baking cookies, drop cakes, rolls and biscuits. Having no sides, the cookies may be easily slipped off and it is so large that any number may be baked at one time, saving time and fuel.

Table Mats.—Take old discarded tin lids and hammer out any little bent places that might be in the edge. Cover nicely with pretty colored cretonne or blue denim. They are pretty and useful to put under hot dishes on the table.

When Baby's Hands are cold fill his own little hot water bottle with fairly hot water and give it to him to play with. This saves considerable time and makes him much more comfortable.

If Potatoes that are to be served for dinner are peeled in the morning and allowed to remain in cold water all day they will be white and mealy when boiled. Do not put potatoes before placing them in water.

When Baking Pans get discolored place them all together in a large vessel (wash boiler will do), cover with water, add laundry soap and handful of soda ash. Boil. Makes them good as new.

The Table.
Ham Bone Soup—Pour water on and

GROWS BEAUTIFUL, HEAVY HAIR,
WE PROVE IT—25 CENT "DANDERINE"

Destroys dandruff—Stops falling hair—Cleans and invigorates your scalp
Delightful dressing—Doesn't color the hair.

To be possessed of a head of heavy, beautiful hair; soft, lustrous, fluffy, wavy and free from dandruff is merely a matter of using a little Danderine.

It is easy and inexpensive to have nice, soft hair and lots of it. Just get a 25 cent bottle of Knowlton's Danderine now—all drug stores recommend it—apply a little as directed and within ten minutes there will be an appearance of abundance; freshness, fluffiness and an incomparable gloss and lustre and try as you will you cannot find a trace of dandruff or falling hair; but your real surprise will be after about two weeks' use, when you will see how hair—fine and downy at first—yes—but really now hair—sprouting out all over your scalp—Danderine is, we believe, the only drug that cures for itchy scalp and it never fails to stop falling hair at once. If you want to have hair—take a cloth with a little Danderine and carefully draw it through your hair—taking one small strand at a time. Your hair will be soft, glossy and beautiful in just a few moments—a delightful surprise awaits everyone who tries this.

IF THIS IS YOUR BIRTHDAY

You will be tempted to do an unkind action which, if done, would cause you far more regret than you can afford. Prosperity and good fortune are in store for you. Regrets would mar your enjoyment. Those born today will be strong physically, but will have to be shown the advantages of being able to control their actions. Their training should be broad and charitable as they easily become fanatical and cruel under sectarian narrowness of thought.

The Down-and-Out

IN MRS. Burnett's little story, "The Dawn of a Tomorrow," the hero was "down and out." Yet he was not the kind of man we usually associate with that phrase. He was rich. He had won a name. But he had lost all faith. He saw no reason in living. He was spiritually down and out.

Yet a little beggar street girl, who knew nothing of life from the viewpoint of philosophers or religious teachers, set him on his feet again. She was the very last person, one would think, who could bring back to him, joy in life.

So we do not know who about us may be down and out. And we do not know but that we may be helpful in once more turning their face forward joyously on the journey of life.

The man who seems so successful may be down and out. She may be discouraged. The endless petty duties entailed by caring for her little ones, may seem a trivial, useless way of spending life.

The business girl may be down and out. The monotonous future stretching ahead of her, may seem too colorless to endure.

The petted society woman may be down and out. The round of gayety may have palled, she may be starving for the real food of life.

Indeed we do not know just who of those walking beside us may be at the point where life seems no longer worth while.

So if we have any good cheer, let us hand it out. "Glad," the heroine of Mrs. Burnett's book, little thought that what she said would lighten this man's dark path, until he once more saw his way clearly. And the words we may pass along, or the little things we may do, may be just the word or the action to pierce the darkness that has settled over some one near us.

It is not only the shabby man who sits on a park bench who is down and out. His condition is proclaimed to the world. But there is many a man or woman wearing good clothes and sitting in comfortable homes who is down and out in heart and mind and spirit. And perhaps we can be "glad," who will bring to them the joy of life.

HEART and
HOME
PROBLEMS
BY MRS. ELIZABETH THOMPSON

Dear Mrs. Thompson—(1) I am a girl of nineteen and no taller than some girls of fourteen and fifteen. Will I ever grow any taller? (2) Am I too old to wear ribbons if they are becoming? (3) Is anyone who throws insulting remarks at a true friend? Should I ignore them or treat her the same way? (4) I think it outrageous for young girls and boys to "hang out" around nickel shows. Am I right? (5) Is it ladylike for girls to use expressions such as "You get my goat," etc.?

(6) I have many sensible boy friends but I don't think of keeping steady company. Is this an old-fashioned attitude? (7) Please give me a recipe for Cheese Straws. The lady met two boys who display no manners whatever in my company. Is this because they don't respect me or are they brought up that way? (8) Is it nice for young girls who attend Sunday school to play cards?

ANBITIOUS.
(1) You have probably got your full height. (2) No. (3) Ignore her as self by acting as she does. (4) Yes. (5) Nice girls do not do it.

(6) I don't approve of "steady company," my dear, unless the couple are really engaged so you are wise not to give any privileges to a man unless he has asked you to marry him. (7) Cheese Straws: 2 oz. dry bread crumbs, 2 oz. grated cheese, 2 oz. sifted flour, small teaspoonful salt, pure ground pepper to taste. Mix together, adding last 2 oz. pure butter. Make a paste, then roll out thin as a match and cut in strips, size of finger, and in paste, bake two or three minutes and serve hot, piled up like a log cabin.

(8) They have probably been badly brought up, and have been with cheap girls. If you are well-mannered they may learn from you. (9) There are card games that do no harm.

Six Million Women Who
Cannot Afford to Marry

"There are two major forces now operating against marriage," says Professor Scott Nearing, Ph. D., University of Pennsylvania, who has made a study of wages throughout the United States.

"There is the tendency in the industries to create unskilled occupations on a vast scale, and to give us men who cannot afford to provide adequately for the families they should be rearing. And there is the social tendency which leads women to demand higher and higher standards."

"While the income possibilities of the average man are assuredly not increasing and probably are decreasing, the economic and social wants of the average woman are increasing very rapidly."

Wages Too Low to Marry.
"I should say that three-fifths of the jobs offered now to adult men furnish wages so low that they cannot decently maintain a wife and three children."

"Only 10 per cent of the male wage-earners in industry receive \$20 a week. Chapin's study in New York sets the limit for a man, his wife and three children, at \$300. A federal study conducted in a small cotton mill section in the south puts it at \$500. Margaret F. Brynnington made a study in Pittsburgh and Homestead and set living cost at \$1,000. A recent study in Chicago set the limit for a bare existence at \$750. And 60 per cent of our men in industry do not earn enough to provide incomes between \$750 and \$1,000."

"One solution already resorted to is the reduction of the family. The number of children is diminishing. The birth rate has been declining all over the civilized world since 1875."

When Both Work.
"Another makeshift that has been tried is that both husband and wife shall work. This, of course, means no children. And it leaves unsolved the great problem of the woman, with high standards of living, who are able to support themselves without the aid of a man."

"The push of the economic and social forces for most people is away from marriage. Whether the victims are men or women."

Drive away germs
with
GOLD DUST

The modern surgeon carefully cleanses hands and instruments before and after every operation; he realizes the danger both to himself and his patient of any clinging germs.

Germs thrive and multiply wherever they can find a lodging place in grease and dirt, and where things are scrupulously clean they find it hard to live.

The easiest and surest way to keep things clean lies in the use of Gold Dust washing powder. Gold Dust goes deep after dirt and routs out every germ and hidden impurity. It is the sanitary cleanser.

Opportunity is knocking at your door.

Gold Dust is sold in 50 cent and large packages. The large package means greater economy.

"Let the GOLD DUST TWINS do your work!"

As sure to rise as the Sun

You can't always make everything "just so." Sometimes you will get in more shortening than usual, or make the batter a little thin; or it may not be convenient to put a cake in the oven the moment it is mixed; or your oven may not bake evenly and it is necessary to turn the pan around—none of these little uncertainties make the slightest difference in results if you use

KC BAKING POWDER

This modern, double-raise baking powder has unusual strength and is absolutely certain to raise your biscuits, cakes and pastry light and feathery. It generates an abundance of leavening gas both in the mixing bowl and in the oven. The raising is sustained until the dough is cooked through.

Housewives who use KC never have "bad luck" with their baking. Try KC at our risk. Your grocer will refund your money if you are not pleased in every way.

Problem is Acute

"We are educating our people to a higher and higher standard. Some adjustment will come, but its coming may be long delayed. Until it comes the problem of love and marriage will grow more acute with the passing years."

"It may take a generation, more probably it will take a century to re-adjust the family to the economic and social conditions which confront humanity."

"Meanwhile American women must face the vital problem of relating their life and happiness to the possibilities of their own generation."

"All women of marriageable age probably debate over the relative merits of love and income."

"At least 5,000,000 must today choose between celibacy and a husband whose earning power will not provide for the family a really decent standard of living. And there is a manifest tendency to decrease the number of American women choosing marriage and to increase the number choosing celibacy."

A Medical Book Free

By Dr. M. A. Goddard

Modern Methods of treating Chronic Diseases without Operation, has just come from the pen of Dr. Goddard the Milwaukee Specialist and is one of the most interesting as well as instructive little books the doctor has ever written.

If you are a sufferer from Appendicitis, Rupture, Gall Stone, Colic, Gout or Chronic diseases of a private nature, you should avail yourself of this offer to send you this valuable little book free simply for the asking. A postal will bring it to you, in a plain wrapper. Many so-called surgical diseases have been proven to be curable by medical treatment, more safely and more easily and cheaply by modern medical methods than was believed possible a few years ago.

After you have read this little book, you can consult Dr. Goddard on his monthly visits to Janesville, free of knowing that you have secured the expert opinion of a reputable specialist in these matters. If you have been advised to submit to an operation, surely do not fail to consult him before undergoing such an operation. His advice may save you many weeks of suffering, loss of time and expense, possibly your life. Dr. Goddard will be at the Myers Hotel, Janesville, Tuesday, Feb. 25th, and he makes no charge for a friendly visit. Hours 9 a. m. to 4 p. m.

Address DR. GODDARD, 121 Wisconsin St., Milwaukee, Wis.

UTTER'S CORNERS

Utter's Corners, Feb. 17.—The L. A. S. will give a social at the home of Mr. and Mrs. Fern Lerwill Saturday night of this week. A program will be rendered after which a conundrum supper will be served. All come and find out what a conundrum supper consists of.

AVIATOR WITH HEADACHE FALLS

Only recently we read of an aviator who said he fell because his head ached. He wasn't himself. In the moment of danger his faculties failed him. Don't have headaches—it hurs success.

HICKS' CAPUDINE

cures headache—gets at the cause, whether hot, cold, griping, nervousness. Liquid, pleasant to take, quickly effective. 10c, 25c and 50c in drug stores.

Every Home Needs This Fine Remedy

A Mild, Reliable Laxative- tonic is Something No Family Should be Without.

MRS. J. W. ANDERSON.

No well-regulated home should be without a laxative for there is scarcely a day in a family of several persons that someone doesn't complain of a headache, of sleeplessness, or show the first signs of a cold.

A laxative then becomes a necessity or what was a trifling congestion at the beginning may run into a serious cold or fever.

No harsh remedy is needed, but simply a mild laxative- tonic, that will make the liver active and stir up the bowels.

People who have tried a great many things, and are themselves heads of families who have seen the little pills run to big ones, will tell you that there is nothing better than Dr. Caldwell's Syrup Pepsin, which you can obtain at any drug store for fifty cents or one dollar a bottle, the latter being the family size.

Among the great believers in Syrup Pepsin for constipation in old or young, and as a general household emergency remedy, is Mrs. J. W. Anderson, Osawatomie, Kas., who writes after using one sample bottle and two dollar bottles of Dr. Caldwell's Syrup Pepsin: "On the plea of the duty that every one owes to fellow sufferers, I appeal to all such who are bowed in spirit, broken in health and discouraged with life, not to give up until they have given Dr. Caldwell's Syrup Pepsin a fair trial."

Syrup Pepsin is scientifically compounded and its purity is vouched for. Mothers give it to tiny babies, and grown people, taking a little larger amount find

it equally effective. It is mild and gentle, pleasant tasting and free from gripping.

It does not hide behind a high sounding name and is absolutely free from any prohibited ingredient. Families who once use Syrup Pepsin forever after avoid cathartics, salts, pills and other harsh medicines, for these only do temporary good, are nauseous and a shock to any delicate system. Such things should never be given to children.

If no member of your family has ever used Syrup Pepsin, and you would like to make a personal trial before buying it in the regular way of a druggist, send your address—a postal will do—to Dr. W. B. Caldwell, 417 Washington St., Monticello, Ill., and a free sample bottle will be mailed you.

Worried Hero.
A critic of Wells' novel, "Marriage," finds in the confounding of the hero "the desire to have it all ways; to possess a woman who shall have all the charm and the caprice of the eternal feminine; who shall, by the grossness of her desires and the pettiness of conversation, give him an agreeable sense of superiority, and yet shall, to order, acquire deep spiritual insight when her husband feels he needs it."

FORTY YEARS AGO

Janesville Daily Gazette, February 13, 1873.—THE FLOOD TIME.—Looking over the numerous effects of the high water has aroused public interest. It has centered on the overflow of water on East Milwaukee street, between Bluff and Main streets, and at its intersection with the latter. On Myer's side of the street the inlet to the culvert was clogged with ice, and the water was thus prevented from following its accustomed channel to the river. M. C. Smith has taken pains to keep the culvert clear at his side of the street and there is no interruption to the flow of water there. The owner of property on the other side of the street has been made as a wet hen all day long, but his passions avail him nothing because the water will continue to run into his cellar unless the gutters are kept clear so that it can pass into the river. The prairie is covered with ice and water enough to keep up a constant flow on Milwaukee street for several days.

Several flocks of pigeons have been visible today, flying northward. Virgil Pope, who has lived in Rock county since 1835, says that this is the first time pigeons have appeared at this early date during the thirty-eight years of his residence here. Add the pigeons to the crowing prairie chickens, and we have fair indications of an early spring.

The girls who were masquerading in night garments, in the third ward, last evening, with the intentions of frightening a gentleman friend, for the belief that they were apparitions from the ghostly realm, were somewhat mistaken in the person. He seemed to be accustomed to that kind of clothing and didn't scare at all, but went for them with open arms. They fled, the ghosts did, and their intended victim waited several hours for them but they didn't care to frighten him any more. Once was enough.

The farmers in Lima and Johnston are raising money by subscription to offer a bounty for the scalps of the wolves which inhabit those localities. Our sporting club should organize and go for the pests.
